Imaging Centers

PREMIER

One of the largest trends in healthcare over the last 20 years is the movement of imaging procedures away from the hospital as procedures evolve, technology breakthroughs emerge and principles of reimbursement are modified. Premier offers a comprehensive portfolio of market-leading companies providing access to new technologies for the equipment, supplies and services used in medical imaging today.

DELIVERING VALUE, SAVINGS AND SOLUTIONS FOR IMAGING

SEAGATE ALLIANCE LLC
3445 WINTON PLACE, SUITE 222
ROCHESTER, NY 14623-2950

Seagate Alliance is a limited liability corporation owned by a large group of hospitals, nursing homes and other health-related organizations located in upstate New York. Seagate and its members continue to grow the purchasing program and now have members in several states.

Through its ownership in Premier, Seagate members and affiliates enjoy numerous advantages.

- The nation's lowest pricing on hundreds of contracts with all major suppliers of healthcare products, supplies and capital equipment;
- A complete portfolio of value-added services which lower costs and improve quality in the healthcare environment;
- Seagate members are entitled to income derived from corporate rebates that are available from specific national contracts.

Many hospitals, nursing homes and other healthcare providers continue to purchase goods and supplies without the benefit of a large purchasing cooperative or a national concern. Traditional purchasing relationships are often difficult to change due to vendor loyalties and other factors.

However, today the need to respond to the severe economic issues facing healthcare has caused an unprecedented number of providers to seek access to top-rated national group purchasing companies. After careful consideration, Seagate Alliance has chosen Premier, Inc. as its national GPO. Premier is the largest group purchasing organization in the country.
