CUSTOMIZED REPORTING CAPABILITIES:

Analyze and manage your business using a variety of different reports available with time-range flexibility. Print, download and import into your favorite spreadsheet software.

Reports include

- Manufacturer Usage
- Product Usage
- Product Usage Trending
- Invoice Account Status
- Invoice Detail

INVENTORY MANAGEMENT :

Maintain better inventory control and food cost management using our Inventory Management Tool.

- Create reports calculating the cost of products on-hand.
- Generate orders by comparing on-hand quantities vs. pre-established par values.
- Provide reporting by General Ledger Codes that can be passed on to accounting departments for periodic reporting purposes.
- Compare current and past inventories.
